

Preparing to Buy a Whole Goat

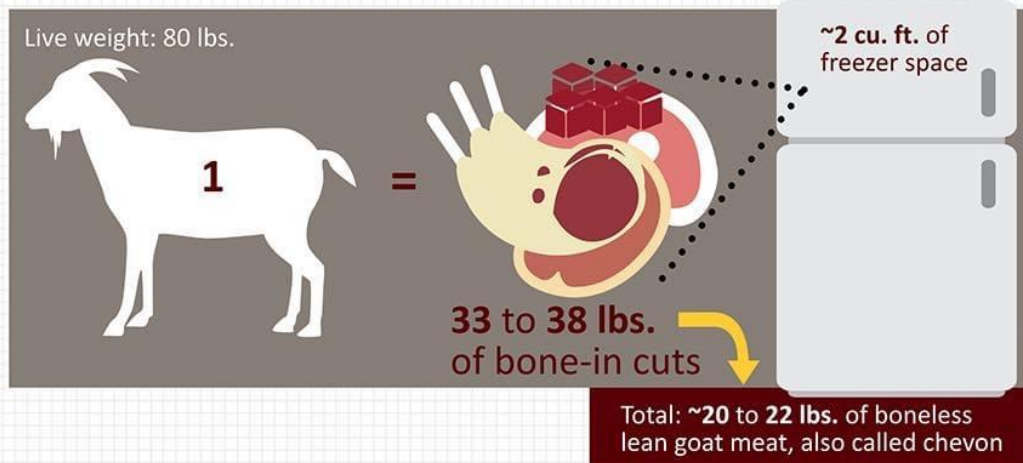

How much meat is a whole goat?

Bone-in meat from a typical market goat with a live weight of **80 lbs**

Goat cuts are commonly merchandised as bone-in primals or cubed (bone-in) goat. Different cut style or additional fabrication will vary quantity and meat cuts. Additionally, quantities of meat will depend on the animal.

How much cooler/freezer space do you need?

What costs should you expect?
